Double-Wall Strength and Durability from Single-Wall Material and Cost

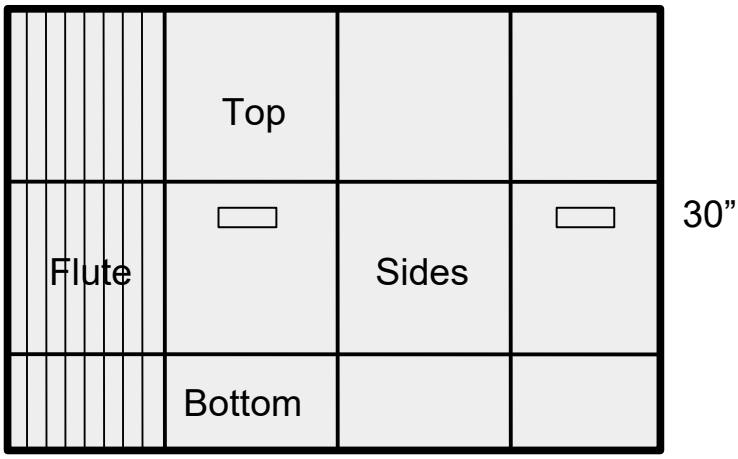

Supports 320+ Lbs (8x40#)

Carries 70+ Lbs (7x10#)
(Prototype Shown)

This **Patent-Pending** innovative box uses a unique single-wall configuration to achieve double-wall strength and durability:

- Supports 320 lbs (Ideal for Rigid segment)
- Carries 70 lbs (Ideal for Bliss segment)
- Popular size box: 1-Cubic foot (12 x 12 x 12)
- Standard single-wall blank material 48” x 30”
- vs. Double-wall 48x48 = **Saves 38%**
- No waste – Efficient design
- No special glue, tape or adhesives

Standard 48” (10 sq. ft.)

<u>Helps Achieve Corp. Goals</u>:

- Less material – **Lightweight**
- Reduce warehouse space and storage costs
- Reduce transportation and shipping costs (DIM)
- Disrupt the **Premium** Rigid Bliss segment (9.2% CAGR)
- Licensing opportunity ⇨
